

Proposition 65 Resources for Businesses

OEHHA is announcing the availability of resources for businesses who have questions about the new Proposition 65 warning regulations that will become fully effective on **August 30, 2018**.

***It is important to note that these new regulations do not determine when a warning is required, they provide guidance for businesses once they have decided to provide a warning for a given exposure to a listed chemical. (Other regulations can help businesses determine when a warning may be required. See Articles 2, 7 and 8 of the Proposition 65 regulations) available at this link: [California Code of Regulations](#)*
