

Bending the Curve of Foodborne Illness

New Era of Smarter Food Safety

Andrew.Kennedy@fda.hhs.gov FDA Office of Food Policy and Response

Agenda

FDA New Era of Smarter Food Safety Core Element 1: Tech-Enabled Traceability

American Spice Trade Association 2021 Regulatory Workshop

August 4, 2021

FDA

New Era: a memorable or important date or event, especially one that begins a new period in our history.

Core Element 1: Tech Enabled Traceability

Tech-Enabled Traceability

1. Develop Foundational Components

2. Encourage and Incentivize Industry Adoption of New Technologies

3. Leveraging the Digital Transformation

Meet core element 1

Co-Leads

Management Team

Andy Kennedy, New Era Technology Team Leader, OFPR

Chris Waldrop Communications

Katie Vierk Policy

Andy Kennedy Tech Solutions, Industry Engagement

Karen Blickenstaff CORE-related Topics/Intersections

Kari Irvin, Deputy Director of CORE, CFSAN

FDA

OUR THINKING

FDA

- The New Era of **tech-enabled traceability** will create a harmonized system of traceability from farm to fork.
- Lay the foundations for traceability by harmonizing key data elements and critical tracking events, making interoperability possible, and helping scale different traceability systems
- Encourage development and use of costeffective tech-enabled tracing systems for all foods, yielding greater transparency
- Leverage **additional functionality** to track, trace, and monitor the food system
- Establish **investigational methodologies** to optimize the use of traceability data in solving outbreaks and identifying root causes

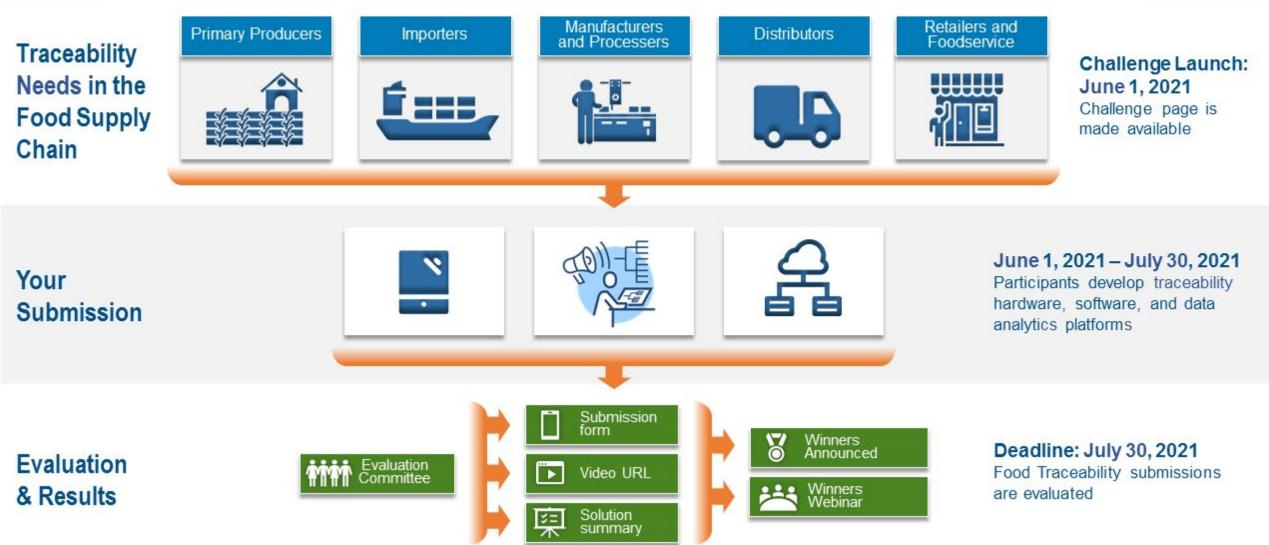

Timeline

The FDA New Era of Smarter Food Safety Low- or No-cost Tech-Enabled Traceability Challenge

FDA

The road ahead for 2022 Finalize the Food Traceability Rule

Build a platform to rapidly receive electronic traceability data at FDA

Initiate further discussions with domestic and international stakeholders about harmonization of traceability efforts

Expand traceability pilot activities beyond leafy greens

Implement changes to digital traceback requests

Efforts to encourage development of simple, low-cost solutions to promote Tech-Enabled Traceability, and to meet requirements of the FSMA Food Traceability Rule when finalized (Follow up on ideas from the Low-cost, No-cost Traceability Challenge)

Traceability Rule Resources:

- Three Public Meeting recordings and transcripts <u>available</u>
- Food Traceability proposed rule <u>webpages</u>
 - Additional Information:
 - <u>NEW: Frequently Asked Questions about the Food Traceability</u>
 <u>Proposed Rule</u>
 - Food Traceability Proposed Rule At-A-Glance
 - Food Traceability Proposed Rule Exemptions At-A-Glance
 - Food Traceability List
 - <u>Risk Ranking Model for Food Tracing tool</u>
 - Which Key Data Elements Would Apply to Me?
 - Who is Subject to the Rule Flowchart
 - Pre-recorded Webinar to Discuss Food Traceability Proposed Rule
 - Supply Chain Examples
 - <u>First Receiver Examples</u>
 - <u>Creation and Transformation</u>
 - Webinar/video
- Additional questions related to this rule should be sent to the <u>FSMA</u> <u>Technical Assistance Network</u>
- Meeting requests related to this rule should be submitted to <u>FSMA204Traceability@fda.hhs.gov</u>
- Comments should be submitted to docket FDA-2014-N-0053 on <u>regulations.gov</u>
