**Ingredientes Naturales
Seleccionados S.L.**

Ingredients Naturales Seleccionados (Ingrenat) is an ingredient company located in South East Spain. The origin of the company goes back to 1849 following the tradition of making paprika products in the region of Murcia. Based on an easy access to fresh raw materials our company has been involved in the manufacturing of natural ingredients as paprika, annatto and a range of rosemary products.

Qingdao Tai Foong Foods Co., Ltd.

Founded in 2000, Qingdao Taifoong Foods Co., Ltd., a private owned company in China, has become a professional manufacturer and supplier with strategic sourcing, quality assurance and supply chain management capabilities after more than ten years experience and development. We specialize in spices, chili and paprika in various variety and processed products which are exported to over 20 countries, such as Japan, Korea, Spain, Germany, Netherlands, Hungary, Israel, Ukraine, the United States, Mexico, Tunisia, South Africa etc. We focus on the optimization of resources to provide customers with accurate and timely information to ensure a stable supply. Through our unique quality and safety assurance system, we always insist on providing our customers with high-quality, safe and healthy products. Tai Foong has 150 employees covering an area of over 50,000square meters and plant area of 20,000 square meters including 5,000 mts of cold storage warehouses. In 2008 the company passed through HACCP food safty system and ISO9001: 2008 quality management system certification, and always operate and run in strict accordance with the program and mode of HACCP and ISO 9001: 2008. We own professional production equipment, as well as the most advanced Steam Sterilization equipment in the world. The production workshop, built in accordance with GMP standard, and passed the GMP certification in April 2013, strictly ensure the quality and safety of products and completely avoid of contamination. In the process of healthy organic development, Taifoong has sought new development trends and opportunities from the customers and the industries we currently serve. Taking "Food safety and Environmental protection" as the goals of development and taking "integrity management and

common development" as the spirit and purpose, we sincerely wish to do business with esteemed customers domestic and abroad on mutual benefit.

Safesteril-ETIA

Safesteril is a continuous steam sterilization process which will make your product safer for the consumer, while maintaining its high quality. The electrically heated screw conveyor will prevent moistening of the product during treatment. The flash cooling step will also prevent condensation which allows you to immediately package. Safesteril has been installed in nearly 20 countries and 60 systems to treat products that include spices, seeds, herbs, botanicals, dehydrated fruits, nuts, vegetables and more. Systems have fully integrated traceability software among many other exclusive features. Pilot system is available for validation testing in the US and in France. Ask us about toll processing availability. Safesteril is represented in North America by BNW, based in Indiana (www.beltomatic.com).
